---

Danie, Sigmund and Gavin (pictured below) joined the Cape Gliding Club during the annual Victoria West Gliding Camp held during the first week of December. The camp has a pleasant relaxed atmosphere where passionate glider pilots utilise the fantastic Karoo gliding weather. Although this year's weather did not compare as favourably as with previous years, all the gliders stayed airborne for most of the day and some good distance flights were flown.

Danie: "It was a very positive experience for me and elevated my flying to a new level. I would encourage all the solo pilots to experience a gliding camp."
